BLOOMINGTON'S RECOGNIZED RESOURCE FOR SENIORS

RSVP BY MONDAY 6/20

The School of Informatics & Computing;
Impact on Economic Development in
Bloomington & Beyond
*Along with an Introduction to IU's
New Engineering Program—the first at IU in 195 years!*

presented by
Jim Shea
Director of Planning School of
Informatics

Informatics is technology education for people who want to solve real world problems.   In 2000, IU introduced the first school of its kind in the United States. The School emphasizes problem solving, innovation, communications and teamwork along with technology skills & knowledge. Jim Shea's unique and engaging style will inspire computer nerds and non-techies alike.

Learn about the impact the School is having on the economic development of Bloomington and beyond!

Thursday, June 23
11:30–1:15
Complimentary Lunch followed by a very engaging and thought provoking discussion

Jim Shea is Director of Planning for the School of Informatics. Shea has developed programs for Baxter, Lilly, Roche Diagnostics, Morgan Hospital, Cummins, General Motors, Authorhouse, AIT, The Villages, and The Center for Occupational Research and Development. He has also worked with many local school systems and all 50 State Education Agencies as well as the Territory of Guam. He was previously Director of Professional Development Programs for IU Bloomington
